

The Patient Experience

MEET
KARI

"Lindsay, Allen, Cheyann, Spring, Mark, Missy, Kelsee... and so many others made my husband's stay as accommodating as possible. The staff had their work cut for them as he was not in a state of mind to be too kind and understanding. The staff went above and beyond to show compassion. The dedication to him was nothing short of amazing. The care given was much appreciated. UBMC is by far the most knowledgeable, devoted and caring facility I have ever visited. *Thank You* seems so diminutive for the the gratitude we have for each of you. God Bless ♥."
