

The Patient Experience

MEET THE ROSS FAMILY

Lucas Bodee Ross
Born 8-15-16

Pictured: Jason, Jen and their children Ethan, Lauren & Baby Lucas
along with two of their OB nurses Julie & Jennifer.

In January 2013, I checked into the OB at UBMC for the first time. We were happy to see how large the rooms were. It made our stay so much more comfortable and allowed us to have some family members present during the birth and easy to have visitors afterwards.

Giving birth was one of the hardest things I've ever done, but I was so thankful to have such great nurses by my side comforting me the entire time. We were so impressed with the level of care we received from our doctor, the nurses, CRNAs, and other medical staff. We have delivered two more children since then and received the same amazing care. We feel so lucky to have such great medical facilities and healthcare providers in our community. Thank you!
